-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 December 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Response to Arguments

2. Applicant's arguments with respect to claims 3-5, 9-11, 15-17, 19, 21, and 23-29 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

3. The indicated allowability of claims 2, 3, 8, 11, and 12 is withdrawn in view of the newly considered reference(s) to Ahmed et al. (6,534,572). Rejections based on the newly considered reference(s) follow.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 3 discloses in line 2 that "the non-acidic compound is glycolide." Claim 4, from which claim 3 depends, discloses that the non-acidic compound is a cyclic lactide. Glycolide does not have the same composition as lactide, and therefore the claim is indefinite. For

Art Unit: 3761

purposes of examination, the non-acidic compound will be considered to be lactide.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 2-5, 9-11, 15-17, 19, 21, and 23-29 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ahmed et al. (6,534,572).

8. Ahmed discloses a superabsorbent material, as described in column 3, lines 30-40, with odor control properties, as described in column 10, lines 11-13, containing a lactide, as described in column 7, lines 55-56. The lactide is present in an amount of 10% with respect to the total weight, as disclosed in column 8, lines 20-24. The superabsorbent material is present in an amount of 70% with respect to the total weight, as disclosed in column 11, lines 25-27. The lactide is therefore present in an amount of about 14% with respect to the weight of the superabsorbent material. The lactide is homogeneously mixed within the superabsorbent material, as disclosed in column 14, lines 1-16. The

Art Unit: 3761

superabsorbent material containing the lactide is comprised in a diaper, as disclosed in column 1, lines 15-18.

9. With regard to the claimed limitation of "cyclic lactide," it is noted that polylactides such as those disclosed by Ahmed are obtained from cyclic lactic esters via polymerization, since cyclic lactic esters are unstable and polymerize readily. Therefore, the polylactides of Ahmed are considered to anticipate or render obvious the present claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Anderson whose telephone number is (571)272-4932. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tanya Zalukaeva can be reached on (571) 272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
